

**THE RESTORATION OF AN OLD BINDING BOOK:  
THE *CHIRIACODROMION*, BĂLGARAD, 1699**

**(SUMMARY)**

The restoration of a copy from *Chiriacodromion*. Bălgrad, 1699, has allowed giving back the health to the book and to reconstitute the original elements of the binding

After the restoration of the leaves, the book was re sewn on outline nerves, which were able to be reconstituted, basis on the marks left on the tab.

The capital-band was woven on string care. After the covers were attached, the leather covers were rehydrated and the missing parts were being complete. Next, the book was drawn on covers.

Following this way, the original elements were being kept. The book is stored in a protection box.

**Photos list:**

1. - Massive degradation of the counterfoil and the book cover
2. - Photo before restoration
