

## MERCURIUS AT GRĂDIȘTEA MUNCELULUI

### SUMARY

In the summer of 1983, at Grădiștea Muncelului (Hunedoara Country), has been discovered a little Roman statue. It has 7,8 cm in length (Figure no. 1) and it's relatively well preserved, even if it has marks of corodation.

The statue is a provincial made object dating from 1<sup>st</sup>-2<sup>nd</sup> century A.D.

### EXPLANATION OF FIGURES
